

TOP TIPS FOR SEESAW – COVID-19

1. Use shortcut icons for instructions.
2. The app is easier to navigate and to respond to children's work. You can include emojis and make it more interesting for them.
3. If you have SeeSaw + you cannot send back work on the app (flaw), you can only do their through the online browser.
4. If you had 2 teachers per year group - you could share the same account. One could be co-teacher and you could still have your two classes. You would share a library and would be able to assign work to both classes, sharing in the planning while still logging in and checking your own pupils' work.
5. Use the comments under the activities to communicate with parents. This means they don't have to download another app to communicate with you and they also don't have to sign in and out of another account.
